

# Why EstateX will be No.1 in Real Estate Tokenization

## Regulatory Compliance

Launching in Q1 2024, EstateX stands as Europe's inaugural fully regulated tokenization platform, ensuring a secure and compliant, end-to-end investment environment.

## Seamless Transition to Web3

Making real estate investing akin to online shopping facilitates a smooth shift from Web2 to Web3, inviting mass adoption growth without user disruption.

## EstateX Pay for Asset Utilization

Convert idle funds into an income-generating asset, and use EstateX branded payment cards to enable on-the-go spending while keeping money invested.

## Instant Liquidity

Gain instant access to liquidity by securing instant loans up to 70% the value of your real estate portfolio, injecting liquidity into an otherwise illiquid sector.

## Financial Education

A comprehensive financial literacy program fills the gap in conventional education systems, empowering investors with essential financial knowledge.

## Powerful Partnerships

Backed by billion-dollar entities like Microsoft and ReMax, EstateX enjoys significant corporate partnerships, and will continue to solidify its credibility and network.

## Staked IEO Confidence

With over 50% of presale tokens staked for an average of 7 years, EstateX showcases a devoted community of serious retail investors, positioning itself as one of the highest-staked IEO.

## Innovative Lifestyle Project

EstateX isn't just about tokens; it's a lifestyle innovation that transcends the traditional crypto project label. We're leveraging Blockchain technology to solve real-world business challenges.

## Winning Awards & Accolades

Honored as the Best RWA project at the India Blockchain Week 2023, EstateX's accolades underline its innovation and industry contribution.

## Celebrity Affiliation and Events

EstateX was recently invited to both the superbowl, the oscars private gifting events. We have powerful relationships with A-list celebrities. [Click Here](#) to see more.

## Beyond real estate

EstateX will expand tokenization into diverse sectors like ESG projects including solar and wind projects, art collections, self-driving taxis, and more, broadening investment opportunities.
